The Tile Leveling System was developed out of a need to diminish costly mistakes due to unlevelled tiles causing lippage in high-end installations. It is the perfect system to use with tile plank and large-format rectified porcelain, marble and stone and the flat base design is ideal for wall tile installations. This time saving system adjusts the height of the tiles and evenly holds their edges throughout the curing process. It is the most cost effective installation method on the market to eliminate lippage.

The Tile Leveling System comes in 4 clip sizes with 1/32", 1/16", 1/8" and 3/16" and provides narrow grout lines for tiles up to 1/2" thick. Wedges are 7/8" wide and can be collected and reused.

## Easy to install and remove!

**1**  
Clean excess thinset along tile edge

**2**  
Insert Clip

**3**  
Secure wedge

**4**  
Once the mortar sets, remove in direction of grout line within 24 hours

The Wall & Floor Tile Leveling System should be used with a minimum 1/2" x 1/2" x 1/2" square trowel notch to apply the setting material. Back buttering your tile is always recommended.
