# TILE LEVELING SYSTEM

QEP offers a variety of systems and spacer styles to eliminate tile lippage.

LASH® XL Tile Leveling System, The original LASH® Tile Leveling System and LASH® 360 Tile Leveling System are two-part systems to eliminate uneven tiles.

Our horseshoe shims, flexible tile spacers, hard tile spacers, and "T" tile spacers are all solid options for aligning floor and wall tile based on your installation preferences.

# Tile Leveling System

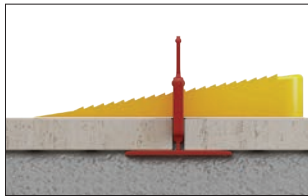

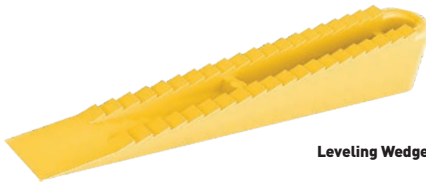

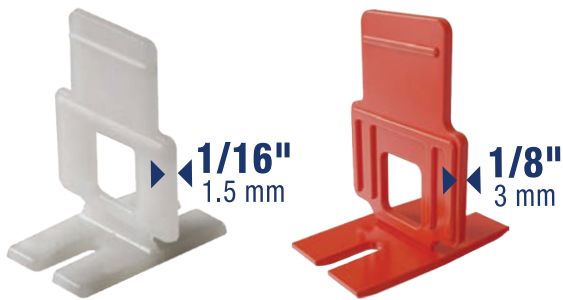

The **ORIGINAL**  
**LASH**<sup>®</sup>  
LEVEL ALIGN SPACE HOLD

## The World's Best Tile Leveling System

The Original LASH<sup>®</sup> Tile Leveling System is designed for quick installation and reduces costly call backs by ensuring that the finished floor surface is lippage-free. This time-saving system helps adjust the height of the tiles and evenly holds their edges throughout the curing process of the setting material.

### Two-part system eliminates uneven tile - Clips and Wedges

- For tile between 1/4" and 7/16" thick
- Proprietary poly blend for secure holding and easy break off
- Clips provide 1/16" or 1/8" grout widths
- May be combined with regular tile spacers for wider joints - up to 1/4"
- Wedges are reusable

# LASH XL™ Tile Leveling System

**NEW**

## LASH XL™

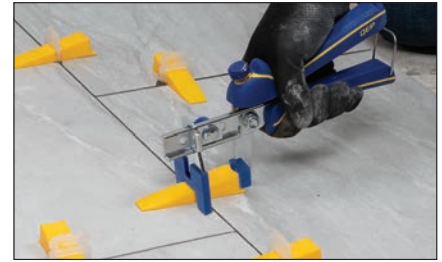

LEVEL ALIGN SPACE HOLD

- For tile up to 1/2" thick
- Proprietary poly blend for secure holding and easy break off
- Clips provide 1/32", 1/16", 1/8" and 3/16" grout widths
- Easy to use, especially with large format tile
- Wide clips and angled wedge are comfortable and prevent hand fatigue
- Wedges are reusable

## Two- Part System eliminates uneven tile – Clips and Wedges

Lash XL ensures large format tile up to 1/2" thick are leveled and consistently spaced during installation. The Wedges are used in conjunction with the Leveling Clips to produce even grout lines and align neighboring tile delivering a lippage-free surface. For quick and easy removal, Clips are designed to break off below the surface of the tile with a simple kick in the direction of the grout line, or strike of a rubber head mallet.

For faster installation use QEP Pro Installation Pliers. See page 31 for details.

# UNDERLAYMENTS & BARRIERS

QEP offers both cork underlayments and Aquabar® "B" Moisture Vapor Barrier to enhance crack suppression. Natural Cork Underlayments help control sound under ceramic tile and stone and reduce thermal transmissions.

# Benefits of Cork Underlayment

A staple in green building, cork offers superior durability, is impermeable, resistant to mold, mildew, and termites. A natural insulator, cork is fire resistant, and provides unrivaled noise reduction properties.

Our cork sheets and rolls exceed the International Building Code requirements for ambient and impactsound transmission. Cork is an excellent resource for underlayment, and comes from a renewable resource. Cork underlayment is carbon negative and is the exceptional choice.

Using cork underlayment contributes to LEED Green Building Credits.

## Natural Cork Sheets

- Reduces sound transmission from both the surface of a floor as well as through the floor to living spaces below
- Use under ceramic tile, stone, marble, engineered hardwood and laminate floors
- Acts as a crack isolation membrane that resists transfer of stress cracks from subfloor through to flooring surfaces
- Reduces thermal transmission, increasing the effectiveness of floor heating systems
- Each sheet: 2' x 3'

\*IIC measures sound such as moving furniture and walking, \*\*STC measures sound such as voices and television. Minimum sound rating required by most building codes and architects is 50. \*\*\*Δ Delta Rating is the only true measurement of sound reduction from a product (not a floor assembly) in the industry.

# DISPLAYS & MERCHANDISING

We are pleased to offer both promotional floor stands and permanent fixtures for some of our best-selling installation tools. The floor displays are made of cardboard which can be recycled and the countertop displays can be used for any QEP product you would like to feature. Our 4' and 8' QEP branded gondola fixtures are designed to hold pegged product, shelf cartons and boxes. The gondola presentation allows for the full range of QEP tile tools to be merchandised together with overhead signage.

## About California Proposition 65

Proposition 65 is a California regulatory law that requires businesses to notify California consumers about specific chemicals in the products they purchase so they can make informed decisions about protecting themselves from exposure to these chemicals. This law requires companies to properly label products that contain chemical(s) above certain threshold levels.

As part of QEP Co. Inc.'s continued best business practice and compliance program, we comply with Proposition 65 warning requirements and provide product-associated warnings. We are dedicated to meeting consumer product safety requirements applicable to our products and strive to provide high quality and safe products.

For more information on California Proposition 65, go to [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).

- \*Prop 65 - 1.  **WARNING:** This product can expose you to chemicals including DEHP which is known to the State of California to cause cancer, birth defects or other reproductive harm.
- \*Prop 65 - 2.  **WARNING:** This product can expose you to chemicals including N, N-Dimethylformamide, which is known to the State of California to cause cancer, birth defects and other reproductive harm.
